

WIENSTROTH
WÄRMEBEHANDLUNGSTECHNIK
Planung Beratung Anlagen Service

Wienstroth Wärmebehandlungstechnik GmbH, based in Goch on the Lower Rhine, is a company with global operations and a highly motivated workforce engaged in formulating special solutions for the heat treatment of steel. Founded in 1996, today we rank among the leading plant suppliers in the thermochemical heat treatment technology segment.

Technician After Sales – Service (m/f/d)

What you will do

- Drawing up spare parts quotations including order processing
- Devising solutions for customer enquiries
- Technical development and support for overhauls, repairs and extensions to existing machines
- Project controlling (deadlines, quality, costs)
- Maintaining article and supplier master data
- Coordination with the customers, suppliers, service providers and departments involved
- Occasional meetings with our customers on site

Your profile

- State-certified technician, mechatronics engineer or comparable qualification with commercial skills
- Ideally professional experience in the field of industrial furnace construction or a mechanical engineering enterprise
- Confidence when dealing and communicating with our customers
- Structured approach to work with effective and accurate results
- Ability to work in a team, flexibility and resilience
- Experience in the use of ERP systems
- Good IT skills (MS Word, Excel, Outlook)
- An ability to speak and write German well is crucial

What we offer

- Challenging and responsible area of responsibility in a young, expanding company
- High degree of creative freedom with decisions reached on a rapid basis
- Performance-related remuneration, attractive conditions and a permanent employment contract
- Christmas and holiday bonus
- Flexible working hours
- Training and further education opportunities
- Company pension scheme
